Blockchain Developer. I am working on Blockchain technology, writing smart contracts and handling some core parts of the product. I hold a good knowledge of Blockchain, Solidity, JAVA and MySQL.

- I have 8 month of experience as a java Developer (SpringBoot) and 5 month of experience as smart contract Intern on solana projects.

EXPERIENCE

ZeroBit Infotech

May 2024 - September 2024

Blokchain Intern

- Specialized in building high-performance decentralized applications (dApps) and smart contracts on the Solana blockchain using Rust and Anchor framework.
- Conducted thorough testing and security audits of smart contracts, ensuring reliability and protection against vulnerabilities such as re-entrancy attacks.

CodeMinto Infotech

February 2025 - Present

Blokchain Developer

- Built and integrated multi-chain dApps like Aptos, Solana, and Ethereum. Researched emerging blockchain technologies and optimized smart contract development.
- Developed efficient and scalable Web3 solutions to enhance blockchain interoperability.

SKILLS

Computer Languages : Rust, Solidity, JavaScript, Java, SQL

Technical Skills : Cryptography, Ethereum, MySQL, OOPS, Solana, Spring Boot, GraphQL, REST API Development

Tools : GitHub, VS Code, IntelliJ, Eclipse IDEA, Postman, MySQL Workbench

Operating System : Windows, Linux - Ubuntu

EDUCATION

P.P.Savani University,

Expected 2026

B.Tech-Computer Science Engineering

PROJECTS

DhulAi - Decentralized AI Chat. Built an AI-powered chat application using React, blockchain, and AI technologies. Integrated decentralized elements for enhanced security while maintaining a hybrid infrastructure. Ensured private real-time communication with an intuitive user interface and AI-generated responses. ([Try it here](#))

Blog Dapp. Designed and implemented a decentralized blog platform on Solana using the Anchor framework. Developed functionality for user profile creation, blog posting, and content management with secure on-chain storage and authorization mechanisms. ([Try it here](#))

Quiz App Spring. Developed a robust Quiz Application using Spring Boot, facilitating quiz creation, management, and submission with features like randomized question selection, dynamic quiz generation, and result calculation. ([Try it here](#))

EXTRA-CURRICULAR ACTIVITIES

- **GDSC Member of competitive programing.**

Led and mentored students in Data Structures and Algorithms (DSA), guiding them through challenging concepts and fostering a collaborative learning environment.
